Demand and Supply

India's job market face the dearth of physiotherapist and it can be attributed to the fact that there is not much awareness about the scope and prospects of the profession. Moreover, lack of infrastructural set up to offer quality education in physiotherapy proves a major handicap. Once awareness about the occupation is spread in mainstream, it would be more in demand than now

Market Watch

As various health centers, fitness centers, wellness centers, spas, etc. are coming up in big way, the prospects of career in physiotherapy seem positive. Students after completing their course in physiotherapy receive offer letters from top notch brands including of Mammoth Resorts USA, Taj Blue Diamond, Sun & Sands, Ambassador Ajanta, Magarpata club & Resorts and many others. Major recruiters are hospitals which try to offer alternative medical service and physiotherapy is one of the most suitable and successful alternative method to cure various ailments.

Job Prospects

Due to mechanization and sedentary lifestyles, people face common musculo-skeletal problems which include issues such as backache, stiff shoulders and neck, osteoarthritis knee, etc. In curing out the disorders, the physiotherapists work wonderfully the mainstream doctors. Physiotherapy can be considered a health profession which is concerned with maximization of mobility and quality of life by implementing clinical reasoning. Physical therapists have ample job prospects in Govt /Private Hospitals, Nursing homes, Residential homes, Rehabilitation centers, Indian Railway, Indian Armed forces, Private offices such as Private practices or Private clinics, etc. Additionally, a person with qualification in physiotherapy can work at Out-patient clinics, Community health care centers or Primary health care centers, Fitness centers or Health clubs, Occupational health centers, Special schools and Senior citizen centers, etc.

Job Prospects

Candidates with excellent research skills can opt for research and development works in various pharmaceutical companies and institutional laboratories located in the USA, UK, Canada and European countries. Aspirants willing to opt for teaching have option of teaching at various universities abroad. Then there are schools for mentally retarded and physically disabled children, defense medical establishments and rehabilitation centers for the handicapped which offer attractive venues for Indian students with qualification in Physiotherapy.

Physiotherapists have better scope internationally than India as the market for it is more expanded in developed countries where it is accepted as an effective method to cure various ailments and health problems. Even compensation packages for physiotherapists are more attractive in the USA, UK, Australia, Canada than in India and that may be a reason why many successful Physiotherapists start their profession or start working with health solution providers in these countries and earn attractive salaries.
